

Investment Objective

The Sasfin BCI Optimal Income Fund is a specialist income generating portfolio which aims to preserve capital and provide investors with an optimal income yielding investment which will substantially track the short-term interest rate cycle. The portfolio will aim to provide an average after-tax yield in excess of that received from money market portfolios.

Investment Approach

In order to achieve its objective the portfolio will predominantly invest in a diversified range of local and global dividend yielding equity securities and non-equity securities, including redeemable preference shares, liquid instruments and other interest bearing securities and instruments. The portfolio may from time to time invest in listed and unlisted financial instruments. The manager may only include the following unlisted financial instruments for efficient portfolio management purposes: forward currency, interest rate and exchange rate swap transactions. The portfolio's maximum exposure to equity securities will be 10% of its net asset value whilst its maximum unhedged offshore exposure will be 25% of its net asset value. When investing in foreign equity securities, the intention is that all currency and interest rate exposure is hedged with large, established and reputable banks to reduce the risk in the portfolio.

Risk profile

Low - Moderate Risk

- Where the asset allocation contained in this MDD reflects offshore and equity exposure, the portfolio is exposed to currency and equity risks.
- The portfolio is exposed to default and interest rate risks.
- Therefore, it is suitable for medium term investment horizons.
- The expected potential long-term investment returns are lower but less volatile over the medium to long term than higher risk portfolios.

Information & Disclosures

Risks: Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information. * **Total Expense Ratio (TER):** Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2024, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 June 2025. **Effective Annual Cost:** Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za. BCI calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period. #Monthly Fixed Admin Fee: R15 excl. VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied. Date Issued as at 14 October 2025.
