The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the Financial Product at the end of the relevant periods shown in the table.

3. The risk profile of the investment has been explained to the investor in terms of the underlying assets (equities, bonds and cash). Collective Investments should be considered a medium to long-term investment. Collective Investments are sold at ruling prices. Forward pricing is used to determine the net asset value. Commission and incentives may be paid and are included in the overall costs. The value of the participatory interests may go down as well as up and past performance is not necessarily a guide to the future performance. BCI is a member of the Association for Savings & Investments SA ("ASISA"). BCI does not provide any guarantee in respect to the capital or return of any portfolio.

It is the investor's responsibility to inform BCI of any changes in personal information and to ensure BCI has their most up to date contact details in order to avoid an investment becoming an unclaimed asset. In the event that the client becomes unreachable or any payment due to the client is rejected (e.g returned income distributions payments, returned redemption payments) by the receiving bank, the client's investment will be regarded as an unclaimed asset. In the event of assets being unclaimed BCI will take necessary actions to trace customers by using any contact details which may be available on our internal database or external information providers, internet search engines and social media. Conflict of Interest

1. The Investment manager earns a portion of the service charge and performance fees where applicable.
2. In some instances portfolios invest in other portfolios which forms part of the BCI Schemes, refer to fact sheets for more details.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request from the company/scheme. Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. For Money Market Funds a constant price will be maintained. While a constant price is maintained the investment capital is not guaranteed. A fund of funds is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios. Different classes of units apply to these portfolios and are subject to different fees and charges. Boutique Collective Investments (RF) (Pty) Ltd is a member of the Association for Savings & Investment SA (ASISA).
